

JAIVIK

Enriched Organic Fertilizer

JAIVIK is a scientifically blended organic fertilizer enriched with bio agent *Trichoderma viride* 1%

This combination of nutrients and micronutrients along with bio agent *Trichoderma viride* 1% results in an all round healthy growth of the plant.

Studies conducted by the Gujarat Agricultural University, Anand, Gujarat, India, have shown that the particular bio agent used in JAIVIK has natural fungicidal properties.

Field experiments conducted at our R&D farm have shown JAIVIK to be very effective against fungi such as:

- Root-rot
- Damping-off
- Seedling rot
- Fusarium wilt
- Collar rot

JAIVIK offers an excellent combination of effective fungal control balanced with nutrients and micronutrients, ensuring the healthy growth of the plant and thereby resulting in higher yield and better quality.

Nutrient Content:

N - 1.5 to 2%

P- 1% to 1.5%

K- 0.5 to 1%

Spore count: 2×10^8 cfu/gm

Application Guidelines:

It can be applied to soil as pre and post treatment

Dosage:

150-200kg/acre preferably administered as a basal dose.

Storage:

Store in a cool dry place away from direct sunlight.
